A. PLANNING FEE INFORMATION

HOW FEES ARE SET AND CALCULATED

The City Council annually reviews and approves fee schedules to enable cost recovery of staff time spent processing development permit applications. Fees cannot be waived or suspended without an action by the City Council. The Director of Planning, Building and Code Enforcement is not authorized to waive fees.

Each type of permit or process that a project entails results in cumulative fees. If staff work is required beyond the scope of what an established fee covers, additional fees may be charged using the division's hourly rate, as shown below. Projects that exceed three rounds of review will be subject to the Supplemental Review Fee which is 30% of the base Planning project fee.

HOURLY RATES

Planning Division	Building Division - Plan Review	Bureau of Fire Prevention	Police Department	Public Works Department
\$291.00	\$255.00	\$239.00	\$168.00	\$155.00

You may request a fee estimate from the Planning Division. Send a fully detailed project description to john.tu@sanjoseca.gov. You will be charged a \$145 fee for staff time spent preparing the estimate.

Examples of fee calculations are shown on Page 3.

FEE REFUNDS

Applicants may submit a written request for a refund of fees paid for services not yet rendered. See the [Development Services Claim for Refund](#) form for more information and instructions. Refunds are subject to the following conditions:

- Refunds must be requested within one year from the date of payment, completed and signed by original payee.
- The claim for a refund to the Planning Division within 30 days of withdrawing the Planning application. Refunds are paid to the party named on the payment receipt.
- General Plan Amendment applications have deadlines for withdrawal of the application. A refund of fees is only granted if you submit the withdrawal prior to the deadline.
- A refund will not be issued for inactive applications where the applicant has failed to respond for more than six consecutive months to the City's request for revisions, information, or materials.
- The refund amount is determined by:
 - Subtracting the percentage of staff work completed, indicated by accomplished milestones.
 - Subtracting any Record Retention fees.
 - Subtracting a \$401 Refund Processing fee.

NO PARTIAL PAYMENT AND RETURNED CHECK CHARGE

Full fee payment is required at the time of application submittal. Some fees, such as the Public Noticing Fee, are not calculated until the application appointment. Applicants who pay with pre-written checks should therefore bring a credit card or additional blank check to ensure full fee payment. If necessary, staff may accept a partially paid application subject to the following conditions:

- Staff review of the application will not commence until all fees are paid in full; and
- If full payment is not received within 14 calendar days of application submittal, the application will be considered void, and staff will initiate a refund of the fees paid, less a Record Retention Fee. At this point, a new application and full payment of fees would be required to proceed with a project.

Note that checks returned for insufficient funds (NSF) may result in a \$38.50 NSF fee charged by the Finance Department, along with additional processing fees.
